APPROVAL OF STATE ENGINEER
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
following limitations and conditions: This permit is to change the point of diversion
of the waters of an underground source as heretofore granted under Permit
No. 21812 is issued subject to the terms and conditions imposed in said
Permit No. 21812 and with the understanding that no other rights on the
source will be affected by the change proposed herein. The well shall
be equipped with a 2-inch opening, an airline and a weir or other type of
measuring device at or near the well to facilitate the measurement and
control of the water, (If well is flowing, a valve must be installed and
maintained to prevent waste.) The State reserves the right to regulate
the use of the water under this proposed change at any and all times.
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not
to exceed 3.97 cubic feet per second but not to exceed an annual
duty of 4.9 acre feet per acre of land irrigated from any and/or all sources
Actual construction work shall begin on or before December 18, 1967
Proof of commencement of work shall be filed before January 18, 1968
Work must be prosecuted with reasonable diligence and be completed on or before December 18, 1967
Proof of completion of work shall be filed before January 18, 1968
Application of water to beneficial use shall be made on or before <u>December 18', 1967</u>
Proof of the application of water to beneficial use shall be filed on or before January 18, 1968
Map in support of proof of beneficial use shall be filed on or before
